DEAL WORTHY STARTER KIT

The Rate Floor Worksheet

The lowest you ever say yes to.

A brand asks what you charge. Now you have a number. Six steps, one floor you never quote below.

WHERE THESE NUMBERS COME FROM

2026 UGC pricing data from Influee, Billo, Insense, UGC Roster, DesignRevision, inBeat, Dan's UGC and 30 Day Pivot. The average UGC video sells for $198 to $212. The median is about $175, so that is your starting base.

Followers barely move UGC prices. Niche, rights and turnaround do. So followers only show up in Step 5, as an add-on.

Where sources disagree, we used the middle. Every result is a floor, not a ceiling. Reviewed October 2026.

Beauty creator, 200 followers, one 30 second video: **$175.** Brand wants 30 days of paid ads (+30%)? $228.

EXAMPLE 2: A BUILDING CREATOR IN TECH

$175 x 1.25 x 1.4 = $306. Add 90 days of paid ads (+50%) and one month of Spark Ads (+30%). Rate floor: **$551.**

The rules

☐ I quote at my floor or above. ☐ If budget is tight, I cut deliverables, not my floor. ☐ I recalculate after every paid deal.
